

### CalBatt innovation for Industry 4.0

CalBatt will be present at the **International Workshop on Innovation for Logistics (WINLOG)**, the event dedicated to technological innovations in logistics according to the **Industry 4.0** paradigm.

For the occasion, CalBatt will present the latest news of its **Dynamo** forklift charging system, developed for:

- ✓ **predictive maintenance** of vehicles through remote performance monitoring
- ✓ **intelligent charging management** for fleets to minimize operating costs
- ✓ implementation of **flexibility services** to the electricity grid
